

Notice of Road Construction
Silver Ridge Subdivision

Project Summary:

This project consists of Pavement Removal, Earth Excavation, Underdrain, Curb and Gutter Repairs, Drainage Structure Repairs, Aggregate Base, HMA Paving, and Restoration.

Project Dates:

Proposed Start Date: May 11, 2020

Proposed Completion: July 25, 2020

Traffic Restrictions: *****Expect Some Delay*****

Traffic will most likely experience some delay. Please be patient and wait for the roadway to clear. This is for your safety as well as the safety of the construction crew.

Mailboxes:

Some mailboxes will need to be relocated temporarily during construction. You will be notified by the contractor if this is the case. These mailboxes will be replaced in their original locations once adjacent work is complete.

Personal Items in the Right of Way:

Relocation and/or repair of personal items such as sprinklers, landscaping, and basketball hoops within the Right of Way are the responsibility of the homeowner. Sprinkler systems should not be operated during construction, as excess water will hinder progress of road and curb repairs. If you have any of these items in the Right of Way, please remove them prior to construction, or call us to determine if you need to relocate them. In subdivisions, the road Right of Way is usually a distance of 30 feet from the center of the road.

Construction Progress:

We intend to be as expeditious as possible. Vehicles parked on the roadway and close to the roadway tend to negatively impact construction activities/scheduling. Please park as far off the road as possible. This will help the contractors to do their work in a timely manner.

Construction will be completed in 4 Stages (*Construction Sequence Subject to Change*):

[Stage 1 – Shadow Oak Court / Autumn View Court / Pebble Ridge Court / Pine Ridge Court]

[Stage 2 – Silverwood Drive (East 1/2)]

[Stage 3 – Silverwood Drive (West 1/2) / Silverwood Court / Amberwood Lane / Split Rail Lane]

[Stage 4 – Hot Mix Asphalt Top Course on Entire Subdivision (North to South)]

Construction will start with Stage 1 and end with Stage 4. The dates above are based on the construction progress schedule. Changes may occur due to improved productivity, severe weather conditions, or utility conflicts.

Thank you for your understanding and assistance. If you have any questions please feel free to call our office at the Genesee County Road Commission (810)767-4920.

Gerrad A. Godley, P.E.
Construction Manager
